MATHEMATICS MASTER'S COURSES IN BLOCK 1-2

If you're a master's student of Mathematics or becoming one after summer (or just interested in Mathematics!), we'd like to help you with your choice of courses in block 1 and 2, which you need to sign up for between May 15 and June 1.

We're giving talks on a broad selection of the master's courses before the course enrollment period begins, so you have a bit more to base your choice on, now that you have to stick to whatever you sign up for because of the new reform.

The talks will be on Fridays in weeks 1 and 3 of block 4. Here's the plan:

Time	Place	Speaker	Courses
29/4 at 13.15-14.00	Aud. 3	Dan	AlgTop and HomAlg
29/4 at 14.15-15.00	Aud. 3	Jakob	Alg3 and AlgGeo
13/5 at 13.15-14.00	Aud. 10	Anne	VidSand1 and VidSand2
13/5 at 14.15-15.00	Aud. 10	Mikkel	FunkAn and Geom2

Facebook events: bit.ly/mathtalk1 and bit.ly/mathtalk2.

We're looking forward to seeing you!

- Dan Nielsen, Jakob Bergqvist, Anne Petersen and Mikkel Munkholm
